## From the President's Desk

SUE ROSS, PRESIDENT

As we head into the Memorial Day weekend, let me extend an official welcome back to all of our seasonal members and hearty hello to the other two-thirds (approximately) of our membership who are no doubt rejoicing at the prospect of summer fun and sun. Let me remind you that your annual membership dues and assessments must be paid in full by May 31 in order to be considered a member in good standing which will entitle you to partake in all that our community has to offer.

When you go to the Club Office to pick-up this year's badges; boat, car, dock and garbage stickers, you will also receive a publication that numerous members in our community worked long and hard on over the winter months. *At the Lake* is a shining example of the good that comes when people work together towards the achievement of a common goal. This 44 page publication provides information about how our community is structured and governed; spotlights many of our activities; educates about what we can all do to keep our environment healthy and thriving; and provides answers to questions that are frequently asked by members. It is bound to make you smile.

This summer at our Annual Meeting on August 18, 2019, at 2 pm we will be electing a full slate of officers. Our By-Laws require that a Nominating Committee be appointed by the Voting Board and requires the Nominating Committee to select a qualified Officer candidate for each office and to obtain the candidate's agreement to accept such nomination. As President, I have the honor of recommending to the Voting Board seven leaders in our community for this committee and the Voting Board then votes to either accept or reject my recommendations. On Friday night the recommendations that I made were accepted. Thank you to Nancy Eisenberg, Ursula Fahmy, Liz Holda, Sam Lewin, Tom Mulcahy, Ann Nathan and Rich Spoerl for agreeing to serve on this Committee.

## Benefit Golf Outing

CAROL HASTIE

Thursday July 18, 2019, at Farmstead Golf and Country Club will be a benefit to defray medical and travel expenses for Massimo Cherichella. Massimo will be traveling to Florida in August to begin the next phase in his treatment for limb lengthening. His one leg is almost 5 inches shorter than the other leg. There are only a few doctors that are trained to perform this type of operation on children. He will need to live in Florida for 2-3 months for extensive daily physical therapy required to assure the success of the surgery. He will then be able to return home to New Jersey and get back to some kind of normal life.

So get your foursome together for this event. It is open to both men and women. If you don't have a foursome,

contact us and we will be sure to hook you up with other benefit golfers. The price for the outing will be \$125.00 and includes 18 holes of golf, golf cart fees, gazebo lunch, barbeque dinner with awards at the Farmstead clubhouse after golfing. The format is scramble shotgun start at 1:30 pm, so plan to register any time after 12 noon.

Massimo is the grandson of Steve and Carol Hastie who are organizing the event. If you need any more information or would like to donate to Massimo's Warriors fund, please don't hesitate to call us at 973-764-6521. Also event sponsors are welcome to sponsor a golf hole or tee or longest drive. We can get the sponsor sign-up sheet to you if you call. Thanks for your help.

## Ecology Corner

CLARK BEEBE, ECOLOGY COMMITTEE

### Beware—Garlic Mustard

As I was driving down Lakeside Drive West the other day, I was admiring the early flowers blooming along the road. I then noticed one plant in particular. The leaves were a triangular to somewhat rounded triangular shape with large serrated teeth on the edges and deep veins across the surface. I realized that those dainty white flowers with four quarter-inch long petals sitting atop 6 to 36 inch straight stems were in fact the invasive plant garlic mustard!

Garlic mustard may seem innocuous but it is just another example of everything green is not necessarily good. Garlic mustard grows almost anywhere. It likes sun but is shade tolerant. Native insects and animals do not typically feed on it. The rare West Virginia White Butterfly sometimes mistakenly lays its eggs on it but when the larvae hatch they cannot eat it so they die. And garlic mustard practices chemical warfare! It puts out biochemicals that inhibit competing native plants and beneficial soil fungi growth.

Each plant produces up to 3,000 seeds. The seeds form in inch to two-inch long vertical bean-like structures that look like a branch off the stem curving upward with no leaves. They are released in late summer to over-winter

and germinate the following spring. That's the bad news. The good news is that the seeds almost all germinate the following spring. Therefore no seeds persist in the soil for years as is the case with many invasive plants. So if you get rid of the plants now while they are flowering before they set seed, there's no need to bag them and there will be few if any to pull next year.

With current moist soils, garlic mustard pulls easily. Weed killer works but that is not the ecology committee's preferred approach. When pulling make sure to knock the dirt off the roots so they die. (The roots will wither even faster if you leave them in direct sun.)

Interestingly, if you are an adventurous foodie, garlic mustard is not only edible but tasty! Grinding the roots and putting them in white vinegar makes a condiment similar to horseradish. The leaves and stems are also enjoyed at certain times of the year. So, go ahead, remove an invasive while making yourself some tasty treats.

Before gathering your healthy snack, ensure that where you are picking was not sprayed with herbicide. Here's a website with some recipes: <http://foragedfoodie.blogspot.com/2013/05/why-you-should-forage-eat-garlic.html>.

First Leg

# SAILED IT!

SUE AND MARK BURUCHIAN

Highland Lakes provided the perfect trifecta for a successful regatta; sun, wind and talented sailors. Fourteen sailors challenged and dueled on May 11 for the first leg of the SANJL championship series. Seven lakes/yacht clubs were represented from Massachusetts to southern New Jersey. Hosting the first regatta is always a challenge to get all those parts, sheets, spar, buoys and hulls ready for racing. Additionally, foul weather gear for the hardy is also a must as cold spring waters usually mean shifty spring winds. This was the case on Saturday and those who loved those conditions prevailed.

Special thank you to Lou Iannucci, Bill Roman, Niv Berutti, Chris Beninati and

Patty Thompson for their respective efforts and help.
